Alta S[®]

SAFE, SIMPLE AND
FLEXIBLE

STOROpack

PERFECT PROTECTIVE PACKAGING

Alta S® IS RELIABLE ALL-AROUND CUSHIONING FOR THE PERFECT PROTECTION OF YOUR PRODUCTS.

Storopack's Alta S® Loose Fill offers safe, simple, and flexible protection for your goods, regardless of how big or heavy they are. That's because the pourable packing material is made from expanded polystyrene (EPS), which fills all the void and reliably protects products – even when exposed to heavy pressure. The benefits of this cushioning material are: It's easy to use, versatile, affordable and antistatic, and can be stored for an indeterminate amount of time. Made from 100% recycled EPS, Alta S® is recyclable, does not pollute groundwater, and is manufactured without CFCs.

Storopack's Loose Fill can also be integrated into existing processes with ease. Storopack's packaging specialists can develop individual solutions for you and help you with the integration process.

Alta S® S-shape for optimal interlocking and secure cushioning
